An Introduction to the Glasgow Regional Economic Sector Classification

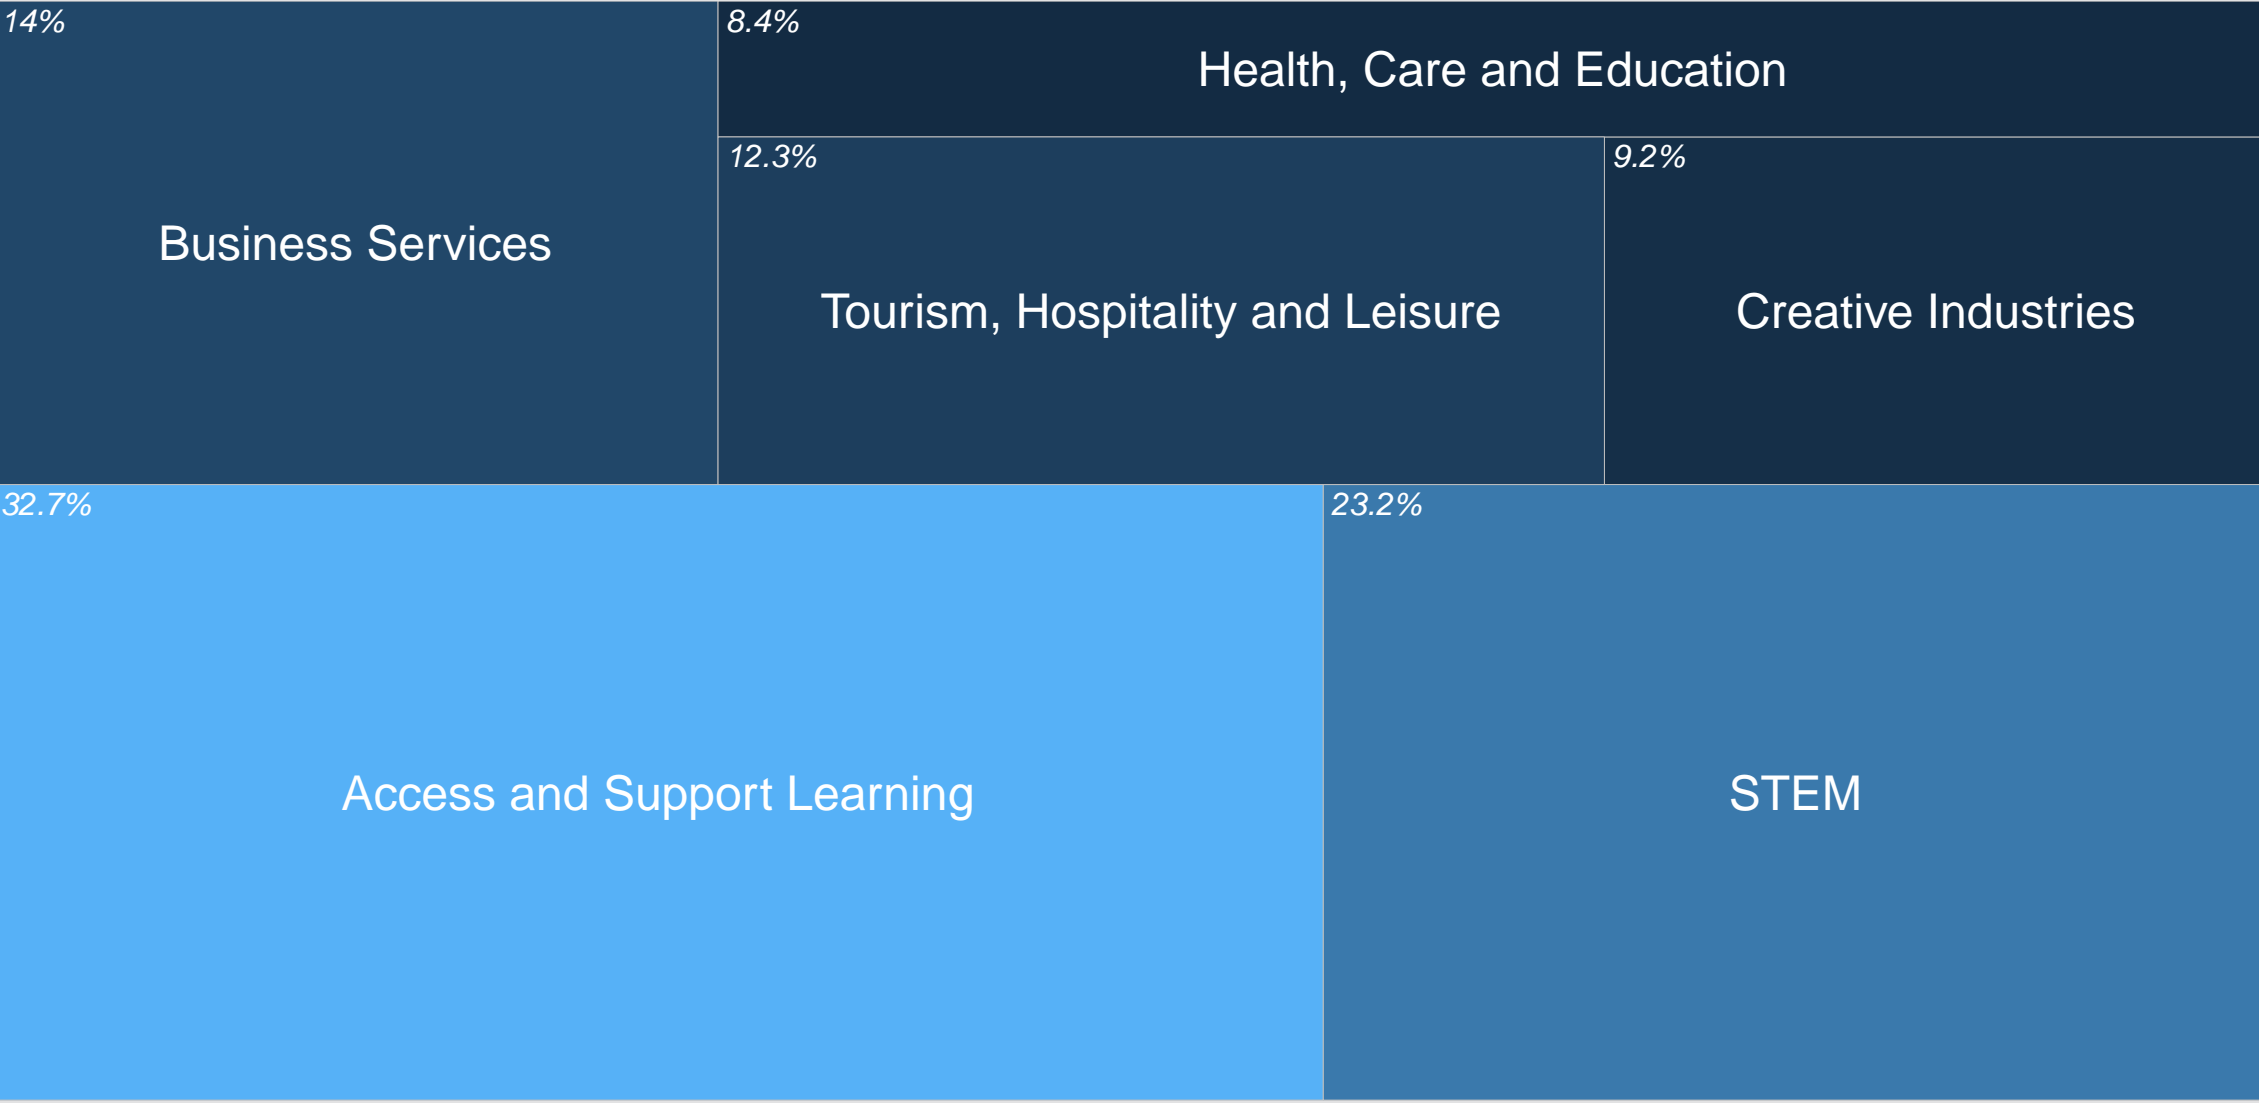

INTRODUCTION

The Glasgow College Regional Board (GCRB) is a joint partnership comprised of representatives of Glasgow Clyde College, Glasgow Kelvin College and City of Glasgow College. GCRB is currently assessing differing aspects of regional skills training provision across Glasgow with the aim of ensuring that supply is meeting labour force demands.

A key aim of regional curriculum planning is to ensure that the combined regional offer continues to meet identified economic and social needs. To aid evaluation, the curriculum has been grouped into six 'sectors', most related to employment areas, with one related to access and supported learning.

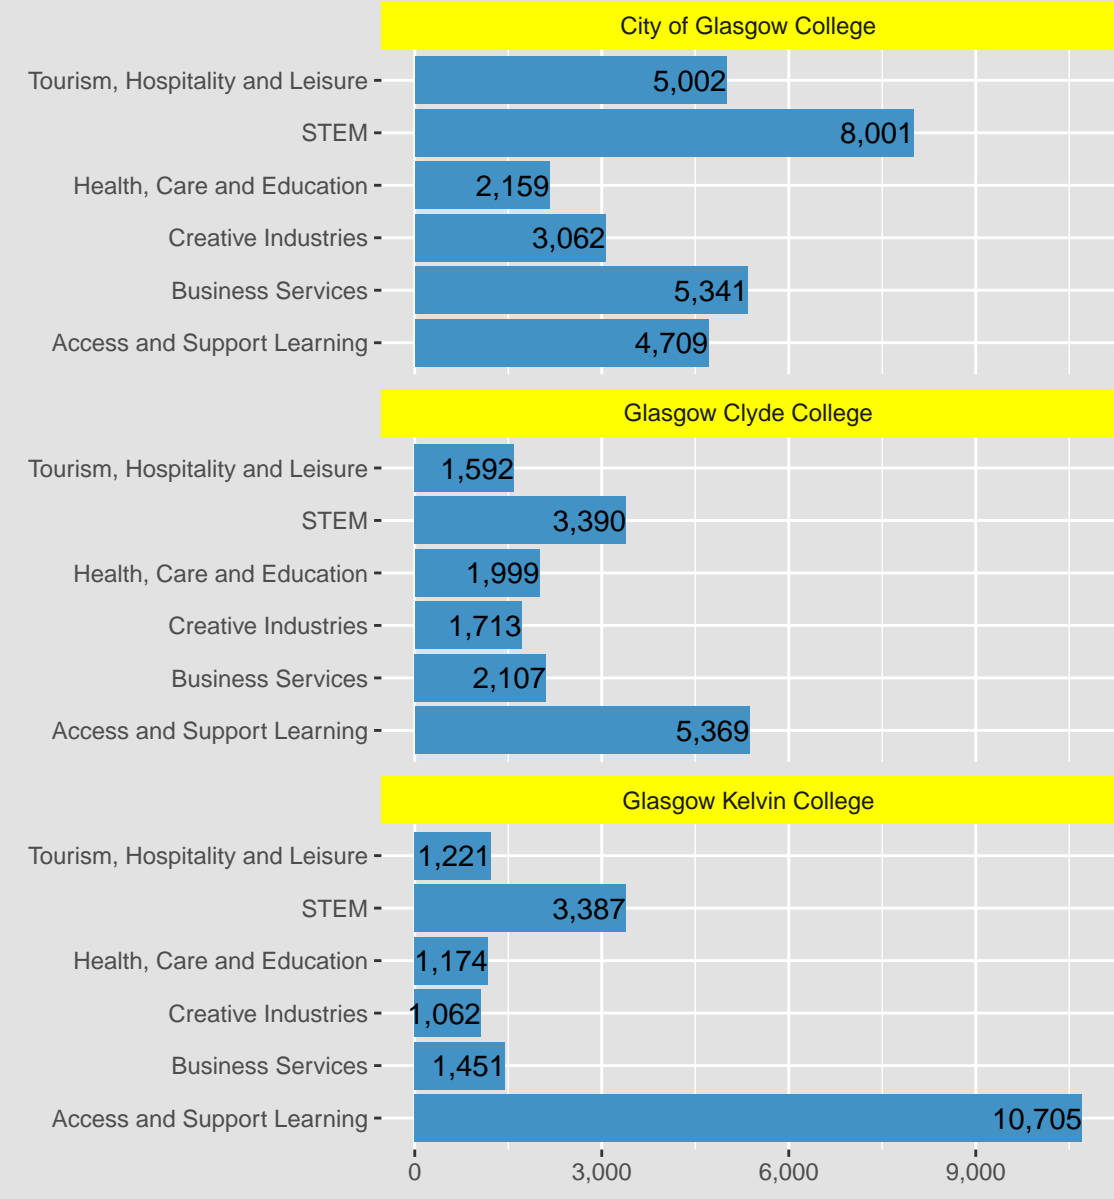

A preliminary look at this Glasgow Regional Economic Sector classification can be found in the graphs below
